

## Planned Lift Dates – 2025 and 2026

The dates for the lifts into the yard are set well in advance. Setting them depends on the tide and they are reasonably predictable but they may move by a day or so or by a whole fortnight so you do need to check closer to these dates. The weather forecast for the day is also a major factor but that is usually notified by the lift team, 2-3 days before the lift date.
